University of Colorado at Denver and Health Sciences Center  
4200 E. 9<sup>th</sup> Avenue, Box C-245  
Denver, Colorado 80262

April 16, 2007

Dear <<Parent First name and Last name>>:

As you know, you and your child <<child name>> are part of a research study called the "Colorado Kids Sun Care Program." With this letter, we are sending you the first installment of our 2007 newsletters. The enclosed newsletter provides information about skin cancer and how to protect your child from the sun using shade. Over the next 4 weeks, we will be sending you 2 more newsletters with additional information about how to lower your child's risk for skin cancer. We hope you will read the information carefully and that it will be helpful.

We will also be sending <<child name>> newsletters this year, and several items to help <<him/her>> learn about sun protection. We hope that you will encourage your child to read each newsletter and to use the items.

If you have any questions about your participation in the Colorado Kids Sun Care Program or about the information contained in the enclosed newsletter, you may call the Program Office at UCDHSC (303-315-2534) or contact Dr. Stefan Mokrohisky at Kaiser Permanente of Colorado (303-861-3558).

Sincerely,

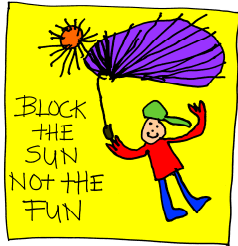

Lori A. Crane, Ph.D.  
Principal Investigator  
University of Colorado  
School of Medicine

Stefan T. Mokrohisky, M.D.

April 30, 2007

Dear <<Parent First and Last Name>>:

This is your second mailing for 2007 from the "Colorado Kids Sun Care Program." In the newsletter enclosed, you will learn about the importance of sun protection when you and your child go on vacation and other outings. The newsletter also has information on tanning, sunscreen and clothing. Please review it carefully. We hope you find the information to be helpful.

We have also sent << child name >> a newsletter that provides sun safety information and activities specifically designed for children. With your child's newsletter, we included a backpack that he can use to carry sun protection items, such as the swim shirt and hat that were previously sent by the Colorado Kids Sun Care Program. The backpack comes with a bottle of spray sunscreen and a tube of sunscreen on a carabineer. We have also enclosed a bag of UV beads that your child can use to learn more about sun protection.

If you have any questions about your participation in the Colorado Kids Sun Care Program or about the information contained in the enclosed newsletter, you may call the Program Office at UCDHSC (303-315-2534) or contact Dr. Stefan Mokrohisky at Kaiser Permanente of Colorado (303-861-3558).

Sincerely,

May 11, 2007

Dear <<Parent First and Last Name>>:

This is your third and final mailing from the “Colorado Kids Sun Care Program.” In the information enclosed, you will learn how you can lower your child’s chances of getting skin cancer someday by limiting the amount of time that your child spends unprotected in the mid-day sun, and by dressing your child in protective clothing. Please read it carefully.

We hope you have enjoyed receiving newsletters and sun protective items from the “Colorado Kids Sun Care Program” over the past 3 years. We hope that it has helped you to better protect your child from getting too much sun exposure.

If you have any questions about your participation in the “Colorado Kids Sun Care Program” or about the information contained in the enclosed newsletter, you may call the Program Office at UCDHSC (303-315-2534) or contact Dr. Stefan Mokrohisky at Kaiser Permanente of Colorado (303-861-3558).

Sincerely,

Lori A. Crane, Ph.D.
