Instructions for Using the Prostate Cancer Screening Web Site Decision Tool

To log in to the Web Site:

1.   Type prostatedecision.georgetown.edu into the browser.

2.   You will now see the "Welcome" screen.

3.   To begin using the decision tool, click on the "Click here to get started" button.

4.   Follow the instructions on the screen.

5.   Please note that the website will not work on mobile phones and requires a computer with Flash Player installed. For instructions to download Flash, please see the handout, Troubleshooting for Prostate Cancer Screening Web Site Decision Tool.

Important Information

1. We recommend that you turn the volume up to an audible volume and not turn it off at any point while viewing the Web site. For several of the web pages, the audio contains additional information that is not on the screen.

2. We recommend that you use external speakers or headphones, if you have them. Although you can hear the audio with internal speakers, the sound can be made louder by using external speakers or headphones.

3. Occasionally, a "Loading" notification will appear on the screen to let you know that more content and audio is coming. This may or may not happen depending on the speed of your internet connection.

4. After 10 minutes of inactivity on the Web site, your session will expire. The webpage will prompt you to click on a link to start the session over.

5. **If you have any questions about the decision aid, please call** [add phone number].
