

March 2024

March is Colorectal Cancer Awareness Month. The Evidence-Based Cancer Control Programs (EBCCP) [website](#) has more than 20 colorectal cancer screening (CRC) programs. The CRC programs on the site are designed for clinical, workplace, home, and faith-based settings. Eleven of these programs have been found effective for populations who are underserved or underscreened, and three programs have materials available in Spanish. Consider implementing one of these programs in your setting. You can view these programs by clicking [here](#).
