IMPLEMENTATION GUIDE
Lung Cancer Screening Decision Tool (LCSDecTool)

Using an evidence-based program to develop
a process model for program delivery in the practice setting

Note: **Refer to "Putting Public Health Evidence in Action." Review the appropriate modules and the handouts provided in each in order to modify and evaluate this program to meet the needs of your organization and audience.**

"Putting Public Health Evidence in Action" is available online:
http://cpcrn.org/pub/evidence-in-action/

I. Program Administration (type of staffing and functions needed)

Program Administrator (any clinical or technical staff)
- Identify patients who are eligible for lung cancer screening and share the materials below with the patient.
- Schedule a time for the patient to meet with a provider to discuss the LCSDecTool with them.

Provider (any clinical staff)
- Meet with the patient and answer any questions that they may have about lung cancer screening. Review pages 14–34 with the patient to understand their perspectives on lung cancer screening.

II. Program Delivery

For additional information on modifying program materials, refer to the appropriate module(s) for program adaptation from "Putting Public Health Evidence in Action."

A. Program Materials *(all listed materials can be viewed and/or downloaded from the products page)*

- **LCSDecTool:** A PDF document with lung cancer screening information for the patient and provider to review.

B. Program Implementation

The steps used to implement this program are as follows:

Step 1: Download and print the LCSDecTool.
Step 2: Instruct the patient to review the program materials and complete pages 16–37.
Step 3: Schedule a meeting for the patient and provider to discuss the completed materials.
Step 4: The provider should review the pictogram on page 14 and assess the patient's responses from pages 16–37.
Step 5: The provider and patient should discuss lung cancer screening, with special attention to pages highlighted for collaborative review.

III. Program Evaluation

For additional information on planning and adapting an evaluation, review the appropriate modules for program implementation and evaluation from "Putting Public Health Evidence in Action."
