## HPV Study 1b: Mother-Daughter Dinners Flow Chart

Recruit eligible mothers and female legal guardians w/ daughters between 9-12 years of age via:

- 1. Public service announcements on local radio station, KUYI
- 2. Flyers/notices posted in community centers, post-offices, local businesses and other public locations
- 3. Face-to-face recruitment by HPV staff at community events and meetings.
- 4. Announcements in community & local organization newsletters
- 5. Electronic announcements sent to community leaders & organizations w/ request to forward to others

**Project Staff responds to calls**, provides general information, confirms eligibility, Send Follow-up confirmation letter, and completes intake process. If eligible, woman and daughter signed up for a consent form, and stamped, return dinner based on village of residence. addressed envelope. **Mother/Daughter Dinners** (~280 Mother/Daughter pairs / 560 total) participants) INTERVENTION CONTROL (~140 Mother/Daughter pairs) (~140 Mother/Daughter pairs) 6 dinners w/ 23 mother-daughter pairs (46 participants) per 6 dinners w/ 23 mother-daughter pairs (46 participants) dinner. Educational program will include presentation on HPV per dinner. Educational program will NOT include vaccine. presentation on HPV vaccine. After presentation, mothers complete survey with questions **After presentation,** mothers complete survey with questions on: HPV knowledge, attitudes and intent to vaccinate on: HPV vaccine knowledge, attitudes and intent to vaccinate daughter(s), plus other health/wellness related questions. daughter(s), plus other health/wellness related questions.
